**Address**

---

**Dealer**

For your facility's protection, we are providing a Primus security system.

This is an exclusive side bit milling to \_\_\_\_\_ and will not be offered to any other dealer within this time zone.

To ensure the security of your key control system, the above-named dealer will not make uncut keys available to anyone at your facility under any circumstance. Cut keys are only available to authorized agents through \_\_\_\_\_. Inventory will be maintained to meet the needs of your installation.

Your signature below will indicate that you understand the positive key control you will achieve through implementation of the above policies and procedures, and that they will not be comprised even if the requestor is an authorized agent.
